A Strategic & Enchanting Location: Riviera del Sol

Riviera del Sol is a gem on the Mediterranean coast, perfectly situated between the vibrant hubs of Marbella and Fuengirola. This enviable position provides future residents with immediate access to pristine beaches, world-class golf courses, luxurious marinas, and an array of exquisite dining and leisure facilities. Málaga International Airport is conveniently close, ensuring excellent global connectivity. The region's celebrated year-round climate, rich cultural heritage, and outdoor lifestyle make Riviera del Sol an ideal destination. The plot's elevated position guarantees magnificent, unobstructed sea views, significantly enhancing the intrinsic value and market desirability of any future homes.

Investing in Riviera del Sol signifies a commitment to a lifestyle of tranquility, sophistication, and convenience, ensuring robust demand for high-quality residential offerings. This prime parcel is the foundation upon which to build a legacy in a location renowned for its natural beauty and luxurious amenities.

Unlocking Potential: Clear Urban Planning & Generous Specifications

This development plot features comprehensive and favorable urban planning specifications, meticulously designed to facilitate a smooth and efficient construction process. These generous parameters enable a substantial, high-quality residential project, perfectly aligning with Luxury Realty’s standards for discerning clientele.

Key Development Parameters:

Calification: AIS 2
Designated as prime urban residential land, this plot benefits from a high-quality zoning classification ideal for upscale development in Riviera del Sol.

Buildability: 0.40 m²/m²
A buildability ratio of 0.40 m²/m² offers significant construction potential, allowing 40% of the plot's area as total floor area for spacious luxury homes.

Buildable Floor Area: 11,346 m²
An impressive 11,346 m² total buildable floor area provides immense capacity for a large-scale project, accommodating numerous dwellings and extensive communal facilities.

Maximum Number of Homes: 81
Zoning permits up to 81 individual homes, an exceptional opportunity for a substantial residential complex featuring diverse luxury property types.

Maximum Height: Ground Floor + 1 (PB + 1)
This height restriction ensures a low-rise, aesthetically pleasing profile, preserving open ambiance and safeguarding magnificent sea views.

Maximum Occupancy: 35 %
A maximum ground-level occupancy of 35% ensures ample open space for lush gardens, pools, and recreational zones, enhancing quality of life and exclusivity.

Separation at the Boundary: 3 meters
A minimum 3-meter boundary separation guarantees enhanced privacy, optimal natural light, and superior ventilation for all units.

Minimal Facade: 10 meters
This requirement ensures substantial frontage for each building or grouping, allowing for grand architectural designs and ample natural light.

Minimum Plot Size (for subdivision): 500 m²
This specification highlights the area's commitment to spacious residential living, even if the larger community were to be subdivided.

Semi-detached/Semi-detached Grouping: Detail Study Required
Flexibility for grouped housing types allows for architectural diversification, with a detailed study optimizing space and aesthetics.

Maximum Grouping Length: 60 meters
Limiting continuous building blocks to 60 meters ensures harmonious integration with the landscape, promoting an intimate architectural style.

Minimum Distance Between Groups: 7 meters
A minimum 7-meter distance between building groups guarantees abundant light, excellent air circulation, and enhanced privacy.
