For sale this plot of 118.000 m2 in the beautiful mountains behind Estacion de Cártama. You can see into the Guadalhorce valley of Malaga. It has a small ruin on it and the land is on a hill. From Estacion de Cartama it is about a 25 minute drive over a dirt track, which is suitable for normal cars, but a 4x4 is better. And when you arrive you feel like you have the whole world for yourself. At this moment the destination of the land is rustic / agrario, but with the new law there are possibilities to make a construction.. We have videos available.
