This particular 1,704 m2 plot distinguishes itself with its prime elevated position, granting spectacular, unobstructed views across lush green zones and the meticulously manicured fairways of the world-famous Valderrama Golf Course. What truly sets this property apart is the invaluable assurance of protected views: no future construction can impede your sightlines from the front or sides of the plot. This is an opportunity to create a private oasis, a secluded haven where architectural grandeur meets the unparalleled beauty of the Andalusian landscape, all while maintaining absolute control over your visual environment.

A Vision for Your Bespoke Residence: Preliminary Architectural Excellence

Adding to the appeal of this offering, the current owner has already engaged with several acclaimed architects to develop a comprehensive and "very special" preliminary design for a bespoke luxury home. While the existing project plans may be considered "out of date" in terms of current trends, they represent a robust and insightful foundation, offering a significant head start for any prospective buyer. These detailed plans provide an initial architectural vision, demonstrating the immense potential and optimal orientation for maximizing light, views, and spatial flow on the plot.

With a proposed habitable build area of an impressive 470.05 m2, complemented by an additional 93.90 m2 basement, the existing designs showcase the capacity for a truly grand residence. The proposed structure outlines a substantial ground floor of 298.28 m2, a first floor spanning 77.87 m2, and a versatile basement. This generous buildability allows for the creation of spacious living areas, multiple en-suite bedrooms, sophisticated entertainment zones, a home office, a private gym, a wine cellar, and potentially staff quarters. These existing plans can either serve as a springboard for your unique contemporary design, incorporating the latest smart home technology and sustainable practices, or inspire a refined interpretation of the initial vision, tailored precisely to your personal tastes and requirements. The investment in preliminary architectural work provides an invaluable advantage, accelerating the journey from concept to completion for your ultimate dream home.
