Renovated townhouse with direct beach access in Bahía Azul, Estepona From the garden to the beach without leaving the complex. This fully renovated townhouse is located in Bahía Azul, a frontline beach complex in Estepona, and is set over three floors. The ground floor is arranged around the living room, with a wood-burning stove with built-in oven and two sliding doors opening onto the garden. A small change in level with a glass balustrade separates it from the dining area, which leads into the fitted kitchen, with a window to the outside. This floor also has a guest WC under the stairs. Wood-effect floors and ducted hot and cold air conditioning. The first floor holds the three bedrooms and two full bathrooms. The master bedroom has built-in wardrobes, an en-suite bathroom with double sink and shower, and access to a private covered terrace. The other two bedrooms, also with built-in wardrobes, share a full bathroom with a bathtub. The open-plan basement, of around 35–40 m², works well as a gym, games room or storage. In summer, life moves to the private garden: pergola, awning and built-in barbecue for lunches and dinners outdoors. A gate leads directly to the communal gardens. The private covered parking space is right at the entrance to the house. The complex has two swimming pools, a padel court, extensive gardens and direct access to the beach and the seafront promenade. Estepona town centre is 5 minutes away by car, Marbella 20 minutes and Málaga airport 50 minutes. A renovated home, ready to move into, with the beach at the end of the communal gardens.
