This magnificent plot spans an impressive 1,130 square meters, offering ample space for privacy, extensive landscaping, and the construction of a truly grand estate. What truly sets this property apart is the invaluable advantage of possessing a pre-approved building license and a complete architectural project. This crucial pre-investment eliminates significant time, effort, and bureaucratic hurdles typically associated with new constructions. For the astute investor or future homeowner, this means a significantly accelerated timeline from acquisition to the realization of their architectural vision, allowing for immediate commencement of construction on a meticulously designed project.

The existing project allows for a substantial buildable area of up to 750 square meters, providing immense scope to design a magnificent villa tailored to the highest standards of luxury living. Whether your vision includes expansive living areas, multiple en-suite bedrooms, a state-of-the-art home cinema, a private gym, or perhaps an impressive wine cellar, this generous allowance ensures that no desire remains unfulfilled. The potential is limitless for creating a home that not only offers unparalleled comfort and style but also serves as a private sanctuary, perfectly integrated into its stunning natural surroundings.
